DETAILED ACTION

Election/Restrictions

1. Applicant's election of species (1), claim 4 in the reply filed on June 14, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Since claim 1 is allowable, according to MPEP § 809.02 (a), nonelected claims 6 and 11 will be rejoined with claims 1-5, 7-10, 12, and 13.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 1-13 are allowable over the prior art in the record. The closest prior art in the record are Burns *et al.*, (US Patent No. 6,379,929 B1, filed on November 19, 1997), Anderson *et al.*, (6,168,948 B1, filed on January 12, 1998), Kercso *et al.*, (US Patent No. 6,132,685, filed on August 10, 1998), and Zanzucchi *et al.*, (US Patent No. 5,585,069, filed on December 17, 1996). These prior art fail to teach steps (b) and (c) of claim 1. These prior art either alone or in combination with the other art in the record does not teach or reasonably suggest a method for performing biological assay in a self-contained microfluidic-based luminescence biochip which comprises all of the limitations recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
